

## AGREE TO ARBITRATE JOB PRINT PAY FIGHT

Both Sides Sign Guarantees to Abide by Decision of Board of Three.

### 25 P. C. CUT IS SOUGHT

Workers Counter With Demand for an Increase—Five Unions Are Involved.

The wage dispute between the New York Employing Printers Association and its 8,000 employees in the book and job printing trades will be referred to arbitration, it was announced last night. The arbitrators will be William F. Ogburn, professor of economics at Barnard College; Allen T. Burns, director of the study of methods of Americanization of the Carnegie Corporation; and Raymond D. Fossick, Commissioner of Accounts during the administration of Mayor Mitchell.

The employers, represented by the association, have demanded a wage cut of 25 per cent, and the employees, represented by five unions, have refused to accept the reduction and have made counter demands for increases varying from \$7 to \$10 a week. The unions involved are Pressmen No. 51, Press Assistants and Feeders Union No. 23, Job Pressmen No. 1, Paper Handlers No. 1 and Paper Cutters No. 13. All of these unions have wage agreements which call for periodical adjustments. The date of adjustment in the present case is April 1 and both sides have signed guarantees to abide by the decision of the arbitrators.

Typographical Union No. 6, the bookbinders and Mailers Union No. 6 are not involved in the present proceedings, although they also have wage agreements with the book and job employers. The contract in these cases, however, do not allow for an adjustment of the scale before next October. All the unions in the book and job trade received wage increases last October as the result of arbitration proceedings in December. These increases ranged from \$2.50 to \$5 a week.

### ROUSE NOT DEBS SPEAKER.

Use of Name on Cooper Union Programme Unauthorized.

Use of the name of Leon H. Rouse, president of the Typographical Union as that of a prospective speaker at a general amnesty meeting calculated to create public sentiment in favor of Debs and other "political prisoners" was objected to by Mr. Rouse yesterday. He said he had no intention of speaking at such a meeting and had not been asked to do so.

Adolph Germer, director of the Socialist committee arranging the meeting, had, in trying to obtain the use of Cooper Union, submitted a tentative list of speakers and Mr. Rouse's name was on it. Mr. Germer admitted he had not spoken to Mr. Rouse about it. Barred from Cooper Union, the committee is trying to find another meeting place, but has not yet done so.

### 'ALTAR OF LIBERTY' OPPOSED BY CURRAN

Borough President Favors Service House for Veterans.

In a letter addressed to the Mayor Borough President Henry H. Curran of Manhattan protested yesterday against the proposal to erect a permanent "Altar of Liberty" in Madison square, "in the perpetuation of the patriotic activities which took place there" and urged that the \$200,000 which the Mayor's Committee on Memorial is said to have in its possession be applied toward the erection of a service house where disabled and needy veterans might find food and lodging at cost.

While Mr. Curran was calling upon the Mayor to come to the aid of the wounded veterans the Citizens Committee to Obtain Justice for the Wounded made it known that Brig-Gen. Charles C. Dawes and the ten other members of the President's commission appointed to make a thorough investigation into the whole subject of disabled veterans had been invited to attend the public mass meeting which the committee will hold in Carnegie Hall on Monday evening.

### EMERSON IS UPHELD.

Court Retains Him as Coreceiver for Hudson Navigation Co.

In a decision filed in the Federal District Court yesterday Judge John C. Knox retained James A. Emerson as permanent co-receiver with Middleton S. Berland for the Hudson Navigation Company. Objection to Mr. Emerson assuming the duties of a permanent receiver were made to the court last week by the Farmers Loan and Trust Company, trustee of the first mortgage and the first mortgage bondholders' committee.

In making his decision Judge Knox pointed out that Mr. Emerson, as an official of the company, is fully familiar with the operation of the company's affairs and not responsible for the company's embarrassment, as charged.

## REQUEST TO BE PUT IN JAIL IS REJECTED

Warden Turns Him Down, and Court Also Refuses to Issue Lock Up Orders.

### WIFE'S CHARGES FOUGHT

Brooklyn Man Cannot Get Habeas Corpus Writ While He Has Freedom.

Paul Brosse of 1147 Thirty-eighth street, Brooklyn, who was released in \$5,000 bail on March 22 by Magistrate Geismar in Fifth avenue court, Brooklyn, after a hearing at which his wife accused him of assault, made two ineffectual attempts yesterday to have his bail turned back to the court and to have himself confined in Raymond street jail as a prisoner.

He went with his attorney to the warden of the jail, but the warden refused to accept Brosse as a prisoner and told him to apply at the court. Magistrate Brown, who was presiding in court, however, also said he could not accept the return of the bond and order Brosse locked up.

The motive for seeking imprisonment, Brosse's attorney explained, was to enable the attorney to obtain a writ of habeas corpus and have Brosse produced in a court where the decision of Magistrate Geismar holding Brosse on his wife's charges could be reviewed. Brosse's counsel alleged that the wife was incompetent to testify against her husband and that her evidence was unsupported. It was reported from the District Attorney's office that Brosse's case had gone to the Grand Jury.

### FIFTH AV. ASS'N PUSHES STREET WIDENING

Plan to Clear Fifty-seventh Street Is Approved.

A proposal to widen Fifty-seventh street from Fifth avenue to Eighth avenue was advanced yesterday at a meeting of the board of directors of the Fifth Avenue Association at a luncheon at the Hotel Biltmore. The Fifty-seventh street committee, which made the recommendation, reported that through its efforts an ordinance barring illuminated signs and signs projecting more than one foot beyond the building line has been obtained. The removal of car tracks at Twenty-eighth and Twenty-ninth streets and Fifth avenue was recommended to the board. Gov. Miller's traction plan was endorsed by the laws and legislation committee.

### ENGINEER OF NEWARK TAKES LIFE WITH GAS

Had Never Spoken of Step-daughter Since She Died.

Since the death by gas of his step-daughter, Elizabeth Schweikert, 14 years old, Richard H. Stewart, chief engineer of the Stewart-Hartshorn Company plant at Newark, never had mentioned the girl. The girl's death was attributed by the police to the chance opening of a gas jet by a rat running along the room during the night. Yesterday morning Stewart was found dead in bed at his home, 648 Broad street, Newark, with a gas tube run up his sleeve, so that the opening was near his mouth, and the police decided he had committed suicide.

No reason has been assigned for Stewart's act. His wife said the plant where he was employed had been closed for two weeks, but that they had money saved and there was no cause for worry.

### REPORTERS APOLOGIZE, SENTENCES SUSPENDED

Tell Justice McAvoy They Did Not Intend Reflection.

Expressing the opinion that the statements and apologies of the two men had vindicated the court, Justice John V. McAvoy, in the Supreme Court, suspended sentence yesterday in the cases of Robert O. Scallan and William P. Beazell, reporters for the World, who were convicted Tuesday of contempt of court.

The contempt proceedings followed the publication of a story in the World concerning the punishment of plumbers indicted in the trials resulting from the Lockwood Committee investigation. Scallan said he never had any intention to reflect in any way upon the court of Justice McAvoy. Beazell expressed regret for the publication of the story that the court held as contemptuous.

### HOSPITAL SEEKS \$250,000.

Beth David Hospital, Lexington avenue and 115th street, will begin its campaign to-day for \$250,000. It is the first time the institution has conducted a public appeal, and the purpose of the present one is to raise funds to complete and maintain an eight story extension now being constructed. It is proposed to enlarge the hospital to four times its present size.

### ENEMY ALIEN SINGS WAY TO CITIZENSHIP

'The Star Spangled Banner' Satisfied Judge McCarthy.

Harry E. Wiencke of 348 Ocean avenue, Jersey City, who came here from Germany eight years ago and was classified as an enemy alien during the war, got his final citizenship papers yesterday by singing "The Star Spangled Banner" before Judge James W. McCarthy in the Common Pleas Court in Jersey City.

When Wiencke told the court that he had sung patriotic songs during the war he was asked to repeat the words of "The Star Spangled Banner." After repeating a few lines Wiencke said: "Judge, I can remember it better if I sing it."

Wiencke sang it through in a strong, clear voice, while the 200 persons in the court room stood. At the finish they applauded.

### PLEA FOR DREAMLAND RECEIVER IS HELD UP

Bondholders Say \$408,000 Sale Left \$500,000 Deficit.

Supreme Court Justice Van Sieten reserved decision in Brooklyn yesterday on the application of Gustavus A. Rogers, attorney for the Dreamland Bondholders Protective Committee, for the appointment of a receiver of that portion of the Dreamland Park property at Coney Island which was sold for \$408,000 on March 22 in foreclosure proceedings. Mr. Rogers contended that the sale had resulted in a deficiency of about \$500,000.

A tract on the sea side of the Dreamland property was purchased yesterday by real estate interests headed by Samuel Gumperts of Coney Island for a price reported to be \$600,000. It is stated that the property was bought to safeguard certain Dreamland tenants against any hitch in closing the title.

### SLAIN MAN FOUND WITH TONGUE CUT OUT

Victim Apparently Murdered With an Axe.

The body of an unidentified man was found in Forest Park, Queens, last night with his tongue cut out, according to the traditional vengeance upon "squealers" and his skull fractured from what appears to have been a blow from an axe. The murder occurred about two days ago according to the Queens medical authorities. The body lay near the Myrtle avenue side of the park in a thicket about fifty feet from the main drive.

The grass was trampled and ground torn up for several yards about the body. A Mrs. Komph of Deyo street, Glendale, picking dandelions with her two children, found the body.

A slip of paper in a pocket bore the name of Tony Mirio Bill di Mazzara. The police said they had not been asked to look for an Italian answering the description of the dead man.

### ROOF TANK SUBDUES FIRE ON 31ST FLOOR

Equitable Building Force Quickly Controls Blaze.

The second highest fire in the history of the city broke out at 7 o'clock yesterday morning on the thirty-first floor of the Equitable Building, and, as in the case of the forty-third story fire in the Woolworth Building several weeks ago, the fire fighting was done by hose connected with the building's own water supply system.

Building employees discovered the fire in a storeroom in the office of Merrill Lynch & Co. Frank Quayle, formerly a captain in the Fire Department and now a captain of the Equitable Building's fire fighting force, had the flames under control before Battalion Chief Walsh and his men arrived.

Hose connections were made to standpipes which were supplied from the tank on the Equitable roof and the room was flooded. The damage was estimated at \$10,000.

### FLAMES IN HOSPITAL ENDANGER PATIENTS

A fire which started at 9 o'clock last night in the dumb waiter shaft of St. Phoebe's Mission, 125 De Kalb avenue, Brooklyn, a five story brick building, built thirty-five years ago and now used as a hospital by the Protestant Episcopal Church, caused \$5,000 damage and threatened the lives of two old women, one 70 and the other 80, and two children.

Mrs. Minnie L. Johnson, the caretaker, was in the dining room on the first floor when she saw flames coming out of the dumb waiter shaft. She called to Arthur Gibson, who was calling at the hospital, and he turned in the fire alarm while she ran upstairs to the third floor and hustled out the four patients. They were taken across the street and put to bed in the dormitory of Fire Company 256.

Patients some distance away in the Brooklyn Hospital heard the noise of the fire apparatus and had to be quieted by nurses.

## MONEY

Spending an Owner's money is the easiest thing in the world, but saving it for him is where we made our reputation.

Put it up to us to put it up for you!

THOMPSON-STARRETT COMPANY

Building Construction

# Lord & Taylor

The new vogue of wheel embroidery is reflected in one of these crepe de Chine gowns pictured; and Spanish flounces give a touch of the Carmenesque to the other

## The Newest Gowns Smart Spring Suits

Show Wheel Embroidery and Spanish Flounces

That Prove the Drop in Prices

THIS offering of two special values features the latest novelties in gowns of crepe de Chine. One is the model in wheel embroidery, huge whorls of silk and iridescent beads on sleeves and skirt; the other is in the Spanish manner, with dashing length of line accented by silver embroidered motifs and panels and finished with two swirling, frilly Spanish flounces below the hips. Distinctive and eminently lovely—the very things for the woman who wants the new style note in her costumes of occasion. Beautifully made, with little niceties of finish of the finer models. Gray and navy.

\$47.50

THIRD FLOOR

EVEN the most critical after-Easter shopper will be enthusiastic at the values we are offering in this splendid assortment of tailors. Neither printed words nor pictured models can show the fineness of fabrics, the quality of tailoring and the thoroughbred appearance of these smart new suits of tricot, Poiret twill and imported tweeds. You really should see them for yourself. The explanation is that they're a specially advantageous purchase—in plain-tailored, or braid-bound, straight-line models, some with hand-made folds; others with embroideries and novel pockets; and imported tweeds for town and country wear.
